ZNANIYE FOUNDATION

CELEBRATING OUR 20TH ANNIVERSARY!

2023 ANNUAL UPDATE NEWSLETTER

AN EVENTFUL YEAR FOR ZNANIYE FOUNDATION...

Welcome to the 2023 Znaniye Foundation Newsletter!
We are delighted to present this newsletter as an opportunity to provide you with an in-depth look at our achievements and progress this year. 2023 has brought numerous exciting partnerships that have expanded our reach to a larger number of children and families. New grants have empowered us to extend our services, and the addition of new volunteers has further enriched our organisation.
Let's delve into more of our latest developments and updates.

Ark Acton Partnership

Ealing Fun Day

Easter and Summer Camp

Saturday Club

Maths Club

Science Club

Cinema Club

and MORE!

A MESSAGE FROM OUR TRUSTEE

As a proud Trustee of Znaniye Foundation, I am delighted that the Charity has been able to extend existing projects such as the Saturday Club and the Maths Club as well as once again being granted funding under the HAF scheme for both Easter and Summer camps. These schemes are crucial in reaching more and more families on low incomes and enable children to not only engage in fun, creative and educational activities, but equally important they enable these children to meet with children from both similar and different cultures and backgrounds and promote confidence and self-belief.

Suzy Hill, Trustee

The new projects such as mentoring at Ark Acton High School and the Science Club target children with specific mentoring and educational help. These are two new projects I am particularly proud of. The launch of the Cinema Club is again, a fantastic opportunity for young children to grow their creative ambitions and through the joy of film, they are able to express their artistic and creative minds. It has been yet another amazing year for Znaniye and I very much look forward to the year ahead.

Ark Acton Partnership

FUNDED BY:

We were absolutely thrilled to receive a grant from BBC Children in Need in 2022, which has enabled us to launch a dynamic 3-year mentoring program. In 2022, the program took place in partnership with Drayton Manor High School, marking the beginning of an exciting journey. For Year 2, we made a strategic choice to partner with Ark Acton Academy, a school that demonstrates a deep understanding of the challenges students face both within and outside the classroom.

Ark Acton Academy is a place where 37% of students are on pupil premium, and 41% access free school meals, underlining the unique challenges they encounter. Furthermore, 66% of students have English as a second language, with only 29% speaking English as their first language. Additionally, 11% of students are on the SEN register, and 22% are mobile, having joined anytime after the first day of Year 7. The diverse student body consists of 6% white British, 25% from other ethnic groups, and 17% Black African.

Just as in Year 1, our expertly selected mentors - all from diverse industries and having embarked on their own unique journeys to success - continued to meet with their assigned children on a weekly basis. The various professional backgrounds of our mentors has added a wealth of experience and perspective to our programme, contributing to its continued growth and positive impact. Together, mentors and their students worked on identifying and solving a range of issues, fostering aspirations, and setting achievable goals. This year's programme also offered us the invaluable opportunity to engage with mentees in person during school hours which allowed for a more personalised approach tailored to individual students' needs. Key themes that emerged from these mentorship sessions included confidence building, guidance on managing friendship groups, strategies for diffusing anger, and fostering respect for authority, among others.

As part of our Safer Neighbourhoods Programme, our partnership with Ark Acton Academy for the 2022-2023 Academic year has introduced a sports intervention initiative. Through collaboration with dedicated football coaches from the nearby Brentford Football Club and Stadium, as well as a police liaison officer, we have established a weekly programme tailored to children in need of immediate support for those at risk of school exclusion.

STUDENTS SUPPORTED IN YEAR 2 (22/23)

VIA CONFERENCES: 550
REVISION DAYS: 44
1-2-1 MENTORING: 29

The primary aim of this unique programme is to offer students a safe and constructive outlet for their emotions, both physically and verbally. The ultimate goal is to reduce conflicts and altercations both within and outside the school environment. Through our collaboration with a local police liaison officer, we hope to bridge the gap of trust between students and local authorities, thus contributing to a decrease in altercations and a decline in anti-social behaviour. Beyond the physical benefits of exercise, it's important to recognise the profound impact sports can have on young people's wellness and mental health. Engaging in physical activities such as football not only encourages physical fitness but also helps alleviate stress, anxiety, and promotes a sense of overall well-being. By engaging in football, we've successfully created a positive and comfortable atmosphere in which we can introduce crucial themes for discussion.

These moments serve to connect the acquired skills to real-life school scenarios, providing students with practical tools for personal development. During these sessions, our coaches have the opportunity to reward students with house points, fostering a sense of achievement and motivation. Furthermore, both individual and group reflection, allows students to internalise the lessons learned and provides a space for self-expression.

This programme has improved the physical and mental well-being of our students and also strengthened community ties, creating a safer and more harmonious neighbourhood for all.

Ark Acton Conferences

1 Paving Your Career: Understanding the pathways available after High School

Year 11 Conference, 18 April 2023

On Tuesday the 18th of April 2023 we hosted a very special conference: "Paving Your Career: Understanding the pathways available after High School" for the Year 11 Students of Ark Acton Academy, to provide a deeper understanding of the working world and how to succeed in it.

The conference allowed the Year 11 Students - who are at a pivotal age taking their GCSE and choosing their next steps in life - to hear from a wide variety of young professionals from a wide range of industries, each with their own special story of how they got to where they are.

Our professional sat on two panels during the day:

1. Paving your career: Understanding the pathways available after High School

2. Workplace Expectations: Learning about code of conduct in the workplace, remuneration and what it takes to stand out at work

Rounding out the day, we were joined by a third panel of guest Speakers for a final panel:

3. Why school matters: Exploring the importance of education and striving for academic success

The speakers for this round were The Honourable Mushtaq Lasharie CBE, Cllr Munir Ahmed, CEO John Martin and CEO Elly Heaton.

2 The Power of Co-curricular Activities and Volunteering: Unlocking Opportunities and Personal Growth

Year 9 & 10 Conference, 11 July 2023

On Tuesday, July 11th, 2023, we proudly hosted our second conference at Ark Acton Academy, extending the invitation to both Years 9 and 10 students. Following the successful format of our previous conference, our distinguished professionals came together on the following panels:

Topic 1: The Power of Co-curricular Activities and Volunteering: Unlocking Opportunities and Personal Growth

Subsequently, our students heard from Sonny Poon Tip, an established actor and A&R authority, who eloquently spoke about Navigating Possibilities: Exploring Life's Horizons Beyond the School Environment in the Dynamic City of London

The programme then transitioned to a Masterclass focused on CV composition and interview acumen. This segment equipped students with a crash course in crafting compelling CVs, illuminating their significance, and what employers look out for.

Our next key speaker was Ravi Gohil, a remarkable individual who has embarked on a journey filled with unexpected twists and turns. Now, at the age of 25, Ravi talked about how he has found his stride in a successful career as a sales manager for a software company. Ravi's speech focused on: Life Isn't Always Linear: Embracing Unexpected Paths and Finding Your True Calling.

In the spirit of each conference, we were joined by distinguished local community professionals who could impart their perspectives on careers and the essence of success. This time, we had the honour of hosting Dr Aysha Raza, a prominent Labour Councillor, alongside Conservative Councillor Seema Kumar, both of whom offered insightful dialogues to our eager young audience.

Culminating the day's proceedings was an impassioned address by the remarkable musician Xadi, who shared his story through his speech: 'Proving Them Wrong'

We have always strived to ensure that our work has lasting impact and value, which is why returning beneficiaries bring such joy to our programmes. We were thrilled to be introduced to a fantastic organisation, Mercy Worldwide, by Michelle, who attended the charity's provisions when we began, 20 years ago. Together with Mercy we worked to organise a huge Ealing Fun Day!

Our goal was simple but profound: to ignite the potential and nurture the growth of the children in our community through the transformative power of play. And on that very hot and sunny June day, we did just that. With over 130 enthusiastic sign-ups from the local Ealing Borough, adn 50 volunteers we embarked on a journey of imagination and discovery that left a lasting impact.

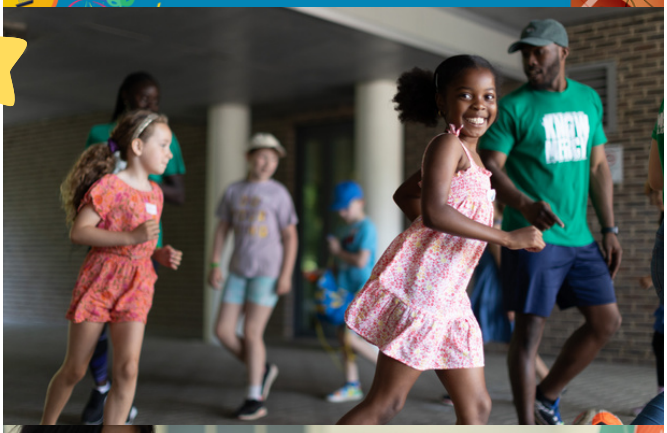

The range of engaging activities we offered was as diverse as the young minds that participated. From arts and crafts that ignited their creativity, music and instruments, sports and games to dance and drama, the children had the chance to explore and express themselves in a supportive and fun environment.

But the magic didn't end there. We believe in the importance of play not just as an activity but as a force for positive change. Our dedicated volunteers and mentors from the charity Mercy were the backbone of this extraordinary experience. They provided guidance, support, and encouragement as young minds engaged in various play-based activities throughout the day. The smiles and laughter that filled the air were a testament to the transformative power of mentorship.

At the heart of it all was the belief in nourishing both the body and mind - which is why Mercy provided a free lunch to all attendees, a summer feast prepared with love by their volunteers.

As we look back on this unique opportunity for our children to connect, learn, and grow through the power of play, we can't help but feel a deep sense of gratitude. It was a day where our community came together to celebrate the potential of our children and offer them a glimpse into a world of endless possibilities. Following the success of the day, and the joyful experience we had working with Mercy, they will be returning to help run our HAF Christmas Fun Day in December 2023 to close off the year!

As part of the HAF (Holiday Activity and Food) Programme, a council-led initiative dedicated to providing enriching experiences during school breaks, we are thrilled to share the highlights of our third consecutive year participating in this wonderful endeavour. The HAF Programme enables community groups like ours to offer stimulating activities, socialisation, learning opportunities, and, importantly, nourishing, freshly cooked meals for children on free school meals.

This year's Easter Camp was a resounding success, filled with themed activities, exercise, laughter, and boundless fun. We were proud to welcome back familiar faces and excited to welcome so many new ones into our vibrant community. Throughout the camp, we organised a diverse range of activities to keep young minds engaged and active:

DAY ONE: We started the camp with an arts and crafts extravaganza, crafting paper plate bunny masks, designing movie posters, and even exploring the world of clay by building our very own pinch pots.

DAY TWO: The creative journey continued with the creation of cactus hands, painting our dried pinch pots, and diving into the world of scriptwriting. It was a day filled with artistic expression and imagination.

DAY THREE: The children got hands-on with finger painting, baked scrumptious Easter biscuits, and had the chance to bring their scripts to life through exciting theatrical performances. It was a day of artistic exploration and storytelling.

DAY FOUR: We concluded the Easter Camp with the creation of charming Easter baskets, an exhilarating Easter egg hunt that stretched across our garden, and a delightful mix of group games and the much-anticipated weekly awards.

Council gift bags!

Baking biscuits

Painting pinch pots

We were absolutely delighted to receive once again the opportunity to host our renowned four-day Summer Camp during the 2023 School Holidays. This initiative has become a cherished tradition for our community, offering children an engaging and enjoyable experience while prioritising their well-being. Our dedicated team, as always, poured their hearts into planning an array of activities designed to keep the students actively engaged and blissfully happy. At the core of our Summer Camp is the holistic well-being of our participants, encompassing not just their physical fitness but also their social and mental growth. It's a commitment that we take very seriously, and it was evident in every aspect of this year's camp. Our team, as always, was an exceptional and diverse group, each member bringing their unique talents to the table. This rich blend of expertise allowed us to offer a wide range of activities that catered to the individual interests and strengths of the children.

DAY ONE: We started with "Get To Know Me Art," creating personalised pieces using our initials. We also learnt all about reptiles, designing the perfect habitat for them.

DAY TWO: We embraced the wonders of nature by planting cress seeds in eggshells and watching them grow. The kids were delighted to make their very own spinning planets, and a group yoga session brought a sense of serenity to our day.

DAY THREE: Creativity was at its peak as we delved into the art of origami, crafting intricate pieces of paper art. Making our own jewelry added a touch of individuality to the camp experience, and we continued to stay active by enjoying a friendly game of football.

DAY FOUR: Our camp concluded with a delightful blend of creativity and culinary delight. We baked scrumptious cookies, painted our own butterflies, and engaged in a series of team games that strengthened our bonds and provided a fitting end to a memorable camp.

For Ages 5-12

Fun & Creative Outdoor and Indoor Activities

EALING SAFER NEIGHBOURHOOD BOARD

Since its inception in 2021, the Saturday Club has been a dynamic and ever-evolving part of our community. Beginning with humble roots and several location changes, we are now proudly settled at the remarkable Ealing Green College, where the Club has truly found its home. Over the years, the Saturday Club has become a cornerstone of our offerings, consistently in high demand and with a perpetual waiting list.

This year, we had the privilege of welcoming 40 children aged 5 and above each week, providing them with a plethora of engaging activities led by a team of dedicated teachers and leaders. The Saturday Club is not just about arts and crafts, games, or educational lessons; it's about instilling values that will endure a lifetime. From fostering community awareness and unity to promoting understanding and respect, our mission extends beyond the activities themselves.

What makes the Saturday Club truly exceptional is its diversity and constant evolution. No two weeks are the same, with a minimum of two unique activities planned for each session. Our goal is simple: to offer children the chance to explore new opportunities and materials they might not otherwise have access to. We are immensely grateful to have built a vast network of families who have not only embraced the Club but also actively spread the word, inviting more children to join our vibrant community. This spirit of growth and development is at the core of our mission, and we welcome experts, volunteers, and anyone eager to contribute to this enriching experience. For the past year, we've had the pleasure of being joined by the exceptional art teacher, Olga, who has consistently crafted unique and innovative activities for the children. Her expertise has added a whole new dimension to the Club, introducing complex materials and techniques that have sparked creativity and imagination. While Olga has unfortunately relocated from London, her impact remains, and we look forward to her return. In the meantime, we are committed to practicing and building upon the invaluable lessons she has shared.

Some of the activities run this year...

Scratch Paper Art
Goal Setting for the year ahead
Firework paintings
Chinese Calligraphy for Chinese New Year
Making our own rice stress balls
Tallest Tower Team Building Competition
Straw Painting
Eid Bookmarks for the local Mosque
Jars of Positivity
Egg Parachutes
Chalk Murals
Jewellery Making
Monster Bookmarks
Rainbows for our funders
Spaghetti and Marshmallows Towers

Tulip Mothers Day Cards
Butterfly prints
Clay Animals
Flower Seeds Bombs
Foam Clay Monsters
Coronation Crowns & Royalty
Around the World
Cardboard Masks
Clay Pencil Pots
Black History Month Butterflies
Wool Spider Webs
Fruit and Veg Models
Ink Printing
Slime Making
Bean Mosaics

Feedback from Parents and Carers:

"We really appreciate your help and support for our children and we hope you can continue to run this club because it is a big help mentally and physically for carers and parents. Thank you so much!"

"Dear team, thank you so much for looking after our children on Saturdays. They always come back so happy and telling us about the great fun they had."

"The staff are amazing and they do wonderful fun and educational things every week"

"Most personal and individual approach of ladies running the clubs"

"Creative, interactive and full of energy"

"He came home very happy. Proud with this project."

"Inclusive and relaxed atmosphere"

YOUNG EALING FOUNDATION

MatHs

In a post-pandemic world, our commitment to nurturing the educational growth of our community's children remains unwavering. Our English, Maths, and Science programmes have adapted to meet the evolving needs of the community over the past few years, ensuring that learning remains enjoyable, effective, and accessible.

The story of our Maths Programme is a testament to our dedication. Funded by the Young Ealing Foundation, it initially began as a drop-in service just before the onset of lockdown. Despite the challenges, we quickly transitioned to a digital platform, opening the door to countless students across the borough. These students have since become cherished members of our current in-person sessions. In 2023, our commitment to enhancing math education has reached new heights. Each week, our dedicated teacher, Rav, invests an impressive four hours in teaching mathematics, with specialised sessions tailored to various age groups and skill levels. The success of these sessions can be attributed to more than just learning; they empower children with the confidence to navigate the complexities of this vital subject, no matter their age.

At its core, our Maths Programme goes beyond arithmetic and equations; it instils a sense of self-assurance and a love for learning. Mathematics can be a challenging but crucial subject, and our programme equips students with the tools and knowledge they need to excel in school. We firmly believe that education should be enjoyable and enriching, and that's exactly what we aim to achieve through our maths programme.

FREE

MATHS CLASSES IN EALING

AGES 5 - GCSE

REGISTRATION REQUIRED

WWW.ZNANIYEFOUNDATION.CO.UK/EVENTS

OR CONTACT@ZNANIYEFOUNDATION.CO.UK

Some of the topics covered:

Number and Place Value - counting, comparing, ordering, reading and writing numbers

Fractions - understanding and calculating with fractions, decimals and percentages

Algebra - expressions, equations, inequalities and sequences

Probability - theoretical probability, tree diagrams and Venn diagrams

Feedback:

My son loves GCSE Maths session. Rav is a fantastic and dedicated teacher. Many thanks for this opportunity.

It's a very helpful session and my son really loved it

Very good and lovely to encourage the kids

My daughter says she is enjoying it to bits!

SCIENCE

In tandem with our flourishing Maths programme, we have launched a new Science component of our Core Subject Support. This year, we forged a partnership with Ealing Libraries, a collaborative effort that has allowed us to host a compelling series of Free Science lessons within the local library network across September and October 2023 (with more to come!).

Every week, at a different library location, our exceptional high school science teacher has been on hand to deliver two hours of comprehensive GCSE Science Lessons, thoughtfully designed to cover both foundation and higher levels. The reception from the community was nothing short of astounding! Students flocked to these engaging sessions from all corners of the borough, and their enthusiasm was contagious. They not only attended each session at each library, but also spread the word to friends and peers, all while expressing their heartfelt appreciation for the invaluable assistance these sessions provided.

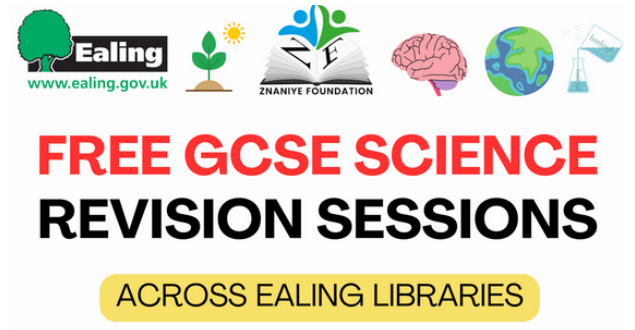

Our objective was crystal clear: to make high-quality, exam-level science education freely accessible to every student in the community. We were determined to ensure that no student faced barriers to improvement, and through our partnership with Ealing Libraries, we made this vision a reality. In the spirit of empowering our youth, we provided the tools, knowledge, and support needed to excel in a core subject, thus opening doors to brighter futures and unbounded potential. As we look ahead, our commitment to enhancing core subject support remains unwavering, and we will continue to seek innovative ways to make quality education accessible to all.

In addition to these sessions, we introduced Science session as part of the Saturday Club, providing even more opportunities for hands-on exploration and discovery. Within this club, children engaged in a wide array of captivating experiments, delving into the world of science in an exciting and interactive way.

Our experiments ranged from Egg Parachute Competitions, where we floated eggs down from the rooftop (with the impressive result that not a single egg broke!) in a lesson of physics, to chemistry experiments that involved dancing popcorn kernels in bottles. The children even had the chance to construct imaginative structures using spaghetti and marshmallows, showcasing their engineering prowess.

These sessions were not just about observation; they were a chance for children to actively participate and learn firsthand. We encouraged them to create hypotheses, put these hypotheses to the test, and engage in thoughtful discussions about their findings. Science Club empowered our young participants to explore, question, and experiment, all while having fun. This immersive approach to science education aims to spark curiosity and nurture a love for scientific inquiry that will stay with them for years to come.

WELCOME CINEMA CLUB

EALING PROJECT

Since September 19th, every other Tuesday, we've embarked on an exciting journey into the world of cinema with our innovative arts and crafts project at the Ealing Project Cinema. Our aim is to provide a platform for young and imaginative minds to explore and immerse themselves in movie and cinema-themed sessions.

On these special weekday sessions, students have the opportunity to don their creative hats, discuss their favourite characters, and craft their own masterpieces in the heart of our local community. The red carpet has been unrolled for these young creators, offering them a space to express themselves and let their artistic talents shine.

So far, the journey has been nothing short of magical. We've delved into the world of movies by crafting our very own 3D popcorn boxes, designing captivating movie posters, creating dynamic cartoon strips, and even developing our own superheroes complete with origin stories. This newly launched project has taken off with tremendous enthusiasm and success, and we're excited to continue this cinematic adventure into the new year!

FEEDBACK:

What a fantastic idea to combine cinema with arts and crafts! The kids love painting, making movie sets and creating costumes.

Cinema club is great, my child loves films and is obsessed with super heroes. The girls who run the sessions make sure all topics are covered.

My child loves the Cinema club. It gives her something exciting to do during the week!

COMING SOON...

We have some very exciting plans to round off 2023, as well as news on new grants and partnerships...

Pathways

This year, we also receiving funding for the first time from Pathways! This grant programme really spoke to us, and we are so proud to now be able to work with them. The funds from their Main Grant Programme are now funding the Saturday Club, and this funding will run into the end of 23- 24 year. In particular sessions will focus on both personal development and group work as a way to target isolation for the children. Creative mediums of arts and music, well known for their capacity to facilitate emotional expression, will serve as powerful tools within our programme.

On December 22nd 2023, Znaniye and Mercy Worldwide are coming together for a second Free MEGA Fun Day just in time for the festive season. Funded again via the Council's HAF programme, this special 4-hour day will give children on free school meals the chance to access a thrilling and stimulating day full of activities including arts and crafts, baking, music, dancing, presents and a freshly prepared meal! We have also opened up paid spaces, ensuring anyone who wishes to attend is able to. If you would like to stop by, please get in touch with Patima or Evie.

Znaniye Foundation presented at the Ealing Safer Neighbourhoods Board Meeting in the Summer of 2023. We were then approached by the Metropolitan Police who were amazed at our work, and wanted to support us with funding! Funding from the Met will go to our Saturday Club, Core Subject Lessons and Sports Mentoring. Not only will it mean sessions are confirmed for months to come, it means we can also open them up to more students!

MAYOR OF LONDON
OFFICE FOR POLICING AND CRIME

Znaniye Foundation were approached by the Young Ealing Foundation and asked to be a part of their MOPAC Parent/Carer Training Programme. This unique opportunity allows parents to access free, world class training sessions to support them in the best way to support their children. Sessions started in Week 2 of November 2023, and will continue until February 2024. Sessions taken place, and confirmed so far include:

'UNDERSTANDING THE TEENAGE BRAIN'

'HEALING THE HOME: TOOLS FOR ADDRESSING FAMILY DYNAMICS AND CONFLICT'

'CONNECTED KIDS, INFORMED PARENTS:
PARENTING IN THE ONLINE AGE'

'UNDERSTANDING THE ISSUES OF VIOLENCE
AFFECTING YOUNG PEOPLE IN THE UK'

STAY TUNED!

AWARDS

We are thrilled to dedicate this page to our prestigious awards, a testament to the incredible efforts and dedication of our charity. These accolades symbolise not only recognition for our work but also the profound impact our community initiatives have made in the lives of children. We take immense pride in our commitment to making a positive difference. These awards honor the relentless passion and hard work of our team, volunteers, and supporters who have contributed tirelessly to our cause. Each accolade stands as a reminder of the transformative outcomes we've achieved for the children we serve. They inspire us to continue our unwavering dedication to creating a brighter future and empowering the next generation.

Join us in celebrating these achievements and the results of our community work as we strive to make a lasting difference in the lives of children across Ealing. Thank you for being part of this incredible journey with us!

In 2021, we were over the moon to have been awarded the Learning Award at the Children and Young People Awards, the award was given for the initiative that has made the best contribution to improving educational achievement. The judges in particular looked for work that has helped children with special educational needs and disabilities or disadvantaged groups such as looked-after children. We were selected for our Summer School in 2020, which provided over 146 entirely free sessions for children in the Ealing Community, who were struggling to access high-level education during the Covid-19 initial lockdown. Over the 6 weeks, we received over 2000 registrations for the programme and delivered over 100 books to children most in need.

Following this in 2022, Znaniye Foundation was awarded the 'Positive Opportunities Award' at the Young Ealing Foundation Annual Awards, for our Saturday Club! We are proud that a year on, the Saturday Club is still running, and is more popular than ever! This award allowed us to share our work and the programme with so many more families. Furthermore, being awarded by the Young Ealing Foundation is extra special to us - we were one of the first members of the Young Ealing Foundation, and they have continued to support us with funding, advice, partnerships and training ever since.

2022 brought us another award, this time from the London Faith and Belief Community Awards! We won the Inspiring Youth Award - again for our Saturday Club. The award recognised that young people from minority backgrounds are often overlooked and may be excluded from civic life. Projects within this category worked with young people to encourage leadership and participation in their local community and connect them with opportunities beyond their neighbourhoods. At the time of the awards in November 2022, we had already supported over 300 children with the project alone. This project has demonstrated that when children are given the chance, including the time, space and materials needed to grow and flourish, the results are outstanding and speak for themselves! The awards were presented at Westminster Abbey by her Majesty's Lord-Lieutenant of Greater London's Council on Faith.

Following on from this award... We have won an award for the second year in a row from the London Faith and Belief Community Awards! This year, we have won the Schools and Educational Establishments Award for our Ealing Mentoring Scheme, which this year alone, supported over 623 young people. The Ealing Mentoring Scheme will begin Year 3 in 2024, and we cannot wait to share with you more about what is to come.

In 2023, we were also nominated for an award at the Ealing Community Network Awards, the ECN have worked tirelessly to support charities and community initiatives for over 20 years, however, sadly have had to close in 2023 due to funding. Whilst we did not win on the evening, the awards ceremony was an incredibly poignant evening, which allowed a great number of people from across the borough to come together and not only celebrate each others work, but the work of the ECN and their spectacular team.

And finally, we are beyond ecstatic to confirm that we have been nominated for the Kings Award for Voluntary Service, by one of our incredible supporters, The Freshwater Foundation. This prestigious annual award is given to groups in the voluntary sector of the United Kingdom. Winning groups are announced in the London Gazette on 2 June each year, the anniversary of the coronation of Elizabeth II. We will ensure to keep all updates when the winners are announced!

FUNDRAISE FOR ZNANIYE FOUNDATION

We wholeheartedly encourage and welcome fundraising initiatives from individuals like you. Your generous contributions enable us to sustain our efforts and reach out to as many children and young people as possible. Together, your support fuels our mission, ensuring a brighter future for those in need. Thank you for being an essential part of our journey! Here are some ideas of fun ways to support us!
